

Fee structure and charging policy

STATEMENT OF INTENT

It is our intention to apply fees fairly and reasonably.

AIM

We aim to ensure that fees are no more than necessary and not a barrier to those in a difficult financial situation.

METHODS

Fees are payable only where funding is not available from Northamptonshire County Council.

The charge is per session and is normally payable in advance at the beginning of each half term, with no refunds for sessions missed.

Fees may be paid using tax-efficient vouchers such as those available from KiddiVouchers, Care4, and Computershare (formerly Busy Bees). Other suppliers will be considered.

The amount of the fees is determined by how much income is needed to ensure staff levels are maintained both at the level required by legislation and at the level we determine is required to provide a better-than-average facility.

Where a parent/carer is experiencing financial difficulties they should speak to the pre-school manager who will refer the matter to the pre-school management committee. It may be possible to spread payments over a longer period, or come to some other arrangement. This will be at the discretion of the pre-school management committee.

In the case of prolonged unexpected absence, e.g. serious illness, fees may be refunded at the discretion of the pre-school management committee.
